

Rahul Pakhare, BA (Economics) FRGS

GIS Consultant, Geospatial, Data and Visualisation

Personal Profile

I am Rahul Bhalchandra Pakhare, a GIS consultant privileged to work on diverse projects that utilise my geographical expertise to support public sector clients in India and the UK. The opportunity to apply my skills while making a meaningful impact on each project is deeply fulfilling.

With over 13+ years of experience across various Geographic Information Systems (GIS) domains—including Electricity Distribution, Land Use Land Cover Mapping, Parcel Mapping, Water Canal Network Mapping, Electricity Distribution Network Mapping, Ecological and Cultural Heritage Mapping, and Environmental Data Visualisation. I have successfully managed and delivered projects for public sector clients.

My extensive experience with GIS technologies, particularly the ESRI ArcGIS Desktop suite and ArcGIS Online, provides me with a deep understanding of the critical aspects of my work. A proactive and optimistic approach to learning new technologies and processes has been key to driving success throughout my career.

Professional Experience

Arcadis Consulting India Pvt Ltd – GIS Consultant

May 2022 to present.

Arcadis is a leading global design, engineering, and management consulting company, and Rahul is a GIS Consultant based at the Global Excellence Center (GEC) in India. Since joining Arcadis in 2022, I have played a pivotal role in supporting ecological and cultural heritage figure production and data creation for multidisciplinary projects.

My responsibilities include tasks such as data cleanup, GIS data conversions, proximity analysis for figures, and spreadsheet creation. I have also demonstrated expertise in publishing ESRI survey setups and ensuring efficient GIS data management, contributing to the success of various projects.

Ceinsys Tech Ltd, Mumbai - Senior GIS Executive

26/10/2017 – 30/04/2022 (4 years, 6 months)

Client: Uttar Pradesh Power Corporation Limited (UPPCL), India.

Project: Integrated Power Development Scheme (IPDS), Restructured Accelerated Power Development and Reforms Programme (RAPDRP)

Rahul's key responsibilities include performing and managing Arc FM QA/QC (Quality Assurance/Quality Control) tasks, preparing web maps, integrating data, creating and updating data models, and developing report templates based on client requirements. Additionally, he is proficient in publishing GIS data to web applications, ensuring efficient and accessible dissemination of geographic information to users.

Rahul Pakhare, BA (Economics) FRGS

GIS Consultant, Geospatial, Data and Visualisation

Client: Central Electricity Supply Utility of Odisha (CESU), India

Project: Restructured Accelerated Power Development and Reforms Programme (RAPDRP)

Rahul's professional experience encompasses a range of GIS-based tasks, including Electrical Consumer Indexing, Asset Mapping, and HT and LT Network Mapping. He has also contributed to GIS-based Electrical Network Analysis and Consumer Tagging, ensuring accurate associations with their respective DTC (Distribution Transformer Centre) and Feeder information.

In addition to maintaining data quality, Rahul has worked extensively on geo-referencing satellite images using DGPS (Differential Global Positioning System) points. He also possesses expertise in creating Electric Substation Single Line Diagrams, showcasing his ability to manage complex technical workflows efficiently.

Senior GIS Executive

Genesys International LTD, Andheri

 15/02/2016 – 25/10/2017 (1 year, 8 months)

Client: Krishna Bhagya Jala Nigam Ltd. India

Project: KBJNL

Rahul's expertise includes creating and updating Canal Networks and their attributes based on scanned inputs provided by the KBJNL Government Authority. He is also responsible for creating and updating Parcels and their attributes using similar government-provided inputs.

In addition, Rahul is skilled in land base digitisation, contour digitisation, and GIS-based irrigation water canal network mapping. His responsibilities also include Land Use/Land Cover Mapping, Parcel Mapping, capturing hydrology data features, conducting quality control of datasets, and ensuring the timely delivery of data to clients.

GIS Executive

ADCC InfoCad LTD, Nagpur

 01/10/2012 – 31/10/2015 (3 years and 1 month)

Client: Maharashtra State Electricity Distribution Co. Ltd

Project: MDS (Managed Data Services)

Rahul participated in a comprehensive survey involving High-Tension Line and Low-Tension Line Electrical Consumers. His responsibilities included GIS-based Electrical Consumer tagging, Consumer Indexing, Asset Mapping, GIS-based Electrical Network Analysis, Consumer Data Clean-up, and MIS Report Creation.

In addition to these technical tasks, Rahul was also responsible for collecting sign-off and approval documents from the Town In-charge, ensuring proper documentation and compliance throughout the project.

Qualification

Bachelor of Arts in Economics

Yashwantrao Chavan Open University, Nashik, Maharashtra, 2003

Learning and upskilling program

Citizen Development Program 2024

I had the opportunity to be part of the Citizen Development Program under the Code Stream, where I learned Python and GitHub. Through dedication and consistent effort, I was recognized as one of the top 10 learners in the program. This experience helped me build my technical skills and boosted my confidence in problem-solving and collaboration.

Rahul Pakhare, BA (Economics) FRGS

GIS Consultant, Geospatial, Data and Visualisation

Community Engagement and Volunteering

I supported community projects in Mumbai and Navi Mumbai by creating location maps, traffic signage, and delivering driver training on efficient route planning with Ganesh Sakpal Samajik Sanstha. I also volunteered for road safety initiatives with Earth Mai Foundation, helping plan and coordinate tree plantation activities. These experiences improved my GIS skills and contributed to local safety and sustainability.

Digital Mapping and Urban Storytelling

In August 2025, I created the award-winning StoryMap "Navi Mumbai: Building India's Model Sustainable City," recognized at the Esri India User Conference. I also developed a public webmap of essential services in Navi Mumbai using Leaflet and GitHub, making emergency and community resources easily accessible with open-source technology.

PERSONAL DETAILS

Name: Rahul Pakhare

DOB: 12th May 1983

Gender: Male

Marital Status: Married

Languages Known: English, Hindi, Marathi, Gujarati

Address: Navi Mumbai

Spouse: Swati Pakhare

Elder daughter : 13 Years old

Younger: 1 Years old

Marriage date: 2007

Favourite colour: Orange

Weight : 63 KG

Height: 172 cm

Interest : Web technologies, Cycling.

Favourite movie : Border

CERTIFICATION

- ESRI ArcGIS Pro Foundation 2101(Apr-2022)
- FME Flow, FME Form training course (2024)
- NPTEL Online Certification in GIS (Jan-Apr 2023)
- Oracle Database 12C from Udemy

SKILLS

GIS Software: ArcGIS Pro 3.1, ARCFM, AutoCAD, QGIS, ArcGIS Online,

Rahul Pakhare, BA (Economics) FRGS
GIS Consultant, Geospatial, Data and Visualisation

Esri Enterprise Portal, MS Office, Microsoft 365

Database & Programming: Oracle, SQL Database, Python

Web Development: HTML, CSS, JavaScript
